# UT National Institute in Forensics

*Coming again for Summer 2023!*

## University of Texas **National Institute in Forensics**

Thank you to all of the students and coaches who joined us this past summer for the **29th Annual UT National Institute in Forensics**. The UTNIF continues to be one of the largest and most accomplished summer forensics programs in the country. Just a few reasons why our students keep coming back year after year: incomparable education, superior resources, unmatched faculty, reasonable rates, tremendous alumni, and the background of the University of Texas at Austin.

What does going to camp do for you?

Success in any academic activity is a product of excellent and immensely talented students, incredibly hard working coaches, supportive parents and schools, and an investment in time that may include summer opportunities. It is that understanding that makes UTNIF one of the largest comprehensive institutes in the country year after year, and why we have assembled some of the brightest forensic minds in the nation for our program. It is also that educational philosophy that has enabled alumni of our summer programs to succeed at every level, from high school and well into collegiate forensics competition.

*Passion... Elegance... Excellence*

We offer our most sincere congratulations to all of the students who qualified for and attended the 2022 TFA State Tournament, UIL contests, TOCs, and the NSDA National Speech Tournament. And to all of the students who were recognized with awards, congratulations on a task well-done. To all of our alumni and to our incoming Longhorns, Hook 'Em!

Welcome to Rockwall and TSCA 2022!

I am so glad that you have been able to join us here in Rockwall.

While trying to decide on a theme, my mind kept taking me back to my high school speech teacher. One of the things she said, (and *still says*) is “Keep It Simple.” Sometimes she reminded us to use the KISS Method (Keep It Simple Stupid – or Speaker; no one in this organization is dumb). Sometimes I think we just make things too complicated. Let’s Keep it Simple!

We need to be reminded to get back to the basics -- focus on the foundations and explore elements we have not looked at in a while. Working our way through all the challenges and changes that a global pandemic has brought about has left us communicators and educators understanding the importance of getting back to the basics. We have evaluated and decided what is important. We need to use those decisions in moving forward. My hope is that your time at convention allows you to focus on those basics that will not only improve our teaching, but our own communication and our connection to others.

Relationships are key in our field. I hope that this time at convention helps you to build and grow those relationships with colleagues. These relationships can help us to be better teachers, coaches, communicators and humans. Something as simple as a conversation here can lead to connections that will not only benefit us but our students as well. This in turn will help us to go back and build strong relationships with our students, giving them the foundation to use communication to build their successes.

I want to encourage you to simply, follow the schedule – just my way of telling you to go take advantage of all that is offered in the program. Attend sessions, business meetings, interest group meetings, district meetings -- and let us feed you! Use these opportunities in the schedule to make connections and think of simple ways to make us better. Get involved. A simple yes at a meeting could lead to sending an email in the future, presenting a panel or even serving as an officer.

Convention for me has always been a time to step away, connect to others and be inspired. I hope that you are able to step away and enjoy your surroundings here. Enjoy a stroll (between sessions) by the lake, dinner with friends and wonderful educational sessions to inspire you in the classroom and beyond. Simple things can make all the difference. I hope that this time at convention simply makes us all better.

Lacy Cannon  
TSCA President

Welcome, TSCA!

I am thrilled to welcome you all to Rockwall and our 2022 Convention! We are so pleased to be able to all meet in person, and learn from one another.

This year's theme of "**Keep it Simple**" is fitting for these times. After a couple years of turmoil and grappling with a changing world and changing norms, it's a breath of fresh air to sit back and get back to the basics. A world in flux may be inevitable, but abandoning the principles that lead to dynamic performance and powerful advocacy is not inevitable. Although our panels are a bit shorter this year, in an effort to allow each panelist to fully explore what they have to share, you will notice that most panels have fewer presenters. We thank our panelists who have stepped forward to share with their colleagues.

I think the program we have created is a great representation of our organization. There are a wide variety of panels and special events that will help us to celebrate our profession and help us remember to keep it simple.

For those of you that are new to TSCA, welcome! Be sure to pick up your ribbon at registration that indicates you are a new member. Please join us at the new member dinner for you on Thursday evening at 5:30pm where you can learn more about TSCA. You will also have the chance to connect with experienced mentor educators.

I am deeply indebted to the counsel and feedback I have received from TSCA members and from the TSCA officers. Your guidance was instrumental in putting together this program. It has been gratifying to witness the grace, patience, and enthusiasm of those with whom I have interacted in crafting the program. In this body exists a wealth of talent and class. Thank you to the Interest Group Chairs for helping to create a variety of interesting panels. Thank you for your submissions, answering emails and checking to see if presenters would be able to be here this year. Thank you to the Local Arrangements committee for your work in securing the Communicator of the Year, and in welcoming us to the Metroplex. We are so very grateful for your hard work. My family, my coworkers and the support from my Panhandle people have helped me through; thank you!

Finally, to all of you, thank you for being here. I truly hope that you are inspired and refreshed by convention this year. Use this time to learn, to connect, and please continue those connections and include them in your future planning.

My hope is that as we work toward next year's convention, as we move beyond the basics and together experience A Time to Grow!

Ryan Lovell

TSCA Vice President

Hello!

The local arrangements committee is excited to welcome you to Rockwall. We are excited to help with hosting this convention near the beautiful Lake Ray Hubbard. It is our hope that you enjoy both the convention experience and all that Rockwall and the area has to offer as we keep it simple and embrace the local motto to, “let the good times roll.”

During your time here, go explore the area around the lake. There are plenty of restaurants and dining options nearby. The Harbor Rockwall has an assortment of dining options- consider getting a burger at Rodeo Goat, Italian from famous Dallas chain Campisi's, BBQ from Sideways BBQ, or consider Cajun at Dodies! There's options for everyone. Along with food, the harbor also is surrounded by Lake Ray Hubbard, consider going fishing or hiking if you are feeling adventurous.

Downtown Rockwall is another excellent option during your down time while visiting- it is designated as Texas Main Street City. Boutiques and shops adorn the streets of downtown that are definitely worth a visit. Also if The Harbor doesn't tickle your fancy for food, downtown also has a plethora of options. There's options from down home food at the Book Club Cafe to street tacos at Charlies. Maybe you are looking for fresh seafood Pier 101. There are plenty of options.

Rockwall is a great city, but downtown Dallas is about 30 minutes away, if you want to drive. Museums, exhibits, and other attractions are all available there. Also, the Texas State Fair is currently happening if that is on your bucket list!

As you are simplifying your life and communication practices at convention this year, we *simply encourage you to experience all the great things in the area with each other! We hope that the community is a place that creates an ease in your mind for the upcoming school year that is effortless.*

Enjoy convention!

## Call for Panels

---

### A Time to Grow

Our profession is at an inflection point. A cacophony of strident voices and competing stakeholders demean academic freedom and vie for attention, but these voices are often simplistic and artless. Indeed, the world seems to have lost an appreciation for the fine art of communication. This comes at a time when reasoned thought and eloquent discourse are more important than ever. Over the past few years we have endured the trauma of a pandemic, the stress of teaching in a state that devalues our profession, and witnessed a shrinking pool of students entering our classes and activities. It is now time to reinvigorate our organization and to work together as a united voice to re-enthroned the importance of speech education throughout the state.

While trying to decide on a theme, my mind was drawn back to the themes of the past few years. In 2021 we focused on functioning in a world that had been turned upside down by the pandemic. We explored how the more things change, the more grounded we need to be in our pedagogy while at the same time being highly flexible and open to new ideas and technologies. This year we took a step back to focus on perfecting the basics as we kept it simple. Next year we will build on these lessons and embrace an era for development and change: truly, a time to grow.

How can we grow in our practice and performance in the classroom? How can we donate our talents to improving our professional community? What do we need to do to continue to grow as an organization? How can we bring others into our fold?

Join us by sharing your research and ideas at the 2023 TSCA Conference in Houston, TX. October 12-14, 2023.

**Presenter(s):** Michelle Franco, Brilliance at Work

Description: Dreaming of a TEDx talk? I love supporting TED speakers. It can feel like such a mystery - how to get on a TEDx stage. And the truth is, the rules ARE different for how to create a great TED or TEDx talk than many other types of speaking. So, understandably, the curation process for speakers is different. For example, I have many people approach me to help them “pitch” their Signature Talk for the TEDx stage. This doesn’t work. TEDx talks are significantly different than signature talks (or as I call them, Rooftop Message Talks) - and in fact, the very things you emphasize in a signature talk or even a keynote might make your TEDx application LESS appealing. I will share some of the differences so you can plan a TEDx talk that is aligned with the TED ethos.

### Who Gets to Talk About Race?

**Sponsor:** Diversity and Inclusion, Texas Forensic Association  
**Coordinator:** Heath Martin, Alief Elsik High School  
**Chair:** Heath Martin, Alief Elsik High School

**Presenter(s):** Daniel Hodges, Apple Valley High School

Daniel Deshon Hodges has been a competitive speech coach for over 15 years and is currently the Director of Speech at Apple Valley High School in Minnesota. Prior to Apple Valley, Daniel began coaching the year after graduating high school at Sioux Falls Lincoln High School in South Dakota where he competed in both speech and debate events as a student. While he has coached both interpretation and public address events, his primary focus is interpretation events. Daniel has coached national finalists

in all NSDA interpretation events. Most recently, he coached the 2020 NSDA Drama Champion, the 2020 and 2021 NSDA Duo Champions, and the 2022 NSDA Humor Champion and POI 4th place Finalist. In all, across national tournaments (NSDA, NCFL, NIETOC, TOC), Daniel has 37 National Finalists with 14 of those being National Champions.

Daniel has been a speaker at multiple tournaments, camps, and conferences, where he loves sharing the tools and processes that he uses to help students excel in competitive speech with his fellow coaches, saying "I am only an expert in what has worked for me. I just hope it will spark something for you."

In his life away from his team and coaching, Daniel is a professional actor/singer and non-profit professional. He is the Executive Director of Luca Bos an organization with a mission to increase access to the mental healthcare profession and mental health care for people of color. He received his B.A. in English and Communication Studies & Theatre from the University of Sioux Falls and his M.A. in Performance Studies from Washington University, St. Louis.

**Description:** Whether through performance in interpretation events or speech writing and delivery in public address events, as a co-curricular academic activity, competitive speech has long been touted as a space where students are encouraged and given a platform to elevate silenced voices and untold stories, to lift the veil on our history and shed light on our present, to examine the critical problems of our day and their solutions — sharing messages that matter to them — a safe space. However, this is only fully realized in theory. In practice, when this idyllic vision of what students are encouraged to do intersects with the subject of race (especially, alongside perceptions of racial identity) competitive speech has stalled in the face of an unfortunate impasse. The impasse is both uncomfortable and racially charged. So, we refuse to confront it — we avoid it. This is a problem for our community as the immeasurable impacts of our avoidance calls into question the safe space we believe we have created for students. The unacknowledged impasse defines our competitive speech spaces, leaving insidious perceptions of race to sow confusion, with students and their coaches questioning,

"Who gets to talk about race?"

Such a question calls for honest conversations regarding our beliefs and perceptions of how race and racial identity operate in competitive speech — not in theory, but in practice. We will answer the question at hand by confronting the unfortunate impasse and leaning into discomfort as we deconstruct it. In doing so we will take a significant step forward toward allowing this activity to become the space we profess it to be in service of our students.

**E-10 Bella Harbor Ballroom F****Meet the Author**

<b>Sponsor:</b>	Oral Interpretation
<b>Coordinator:</b>	Hannah McCord, Cypress Lakes High School
<b>Chair:</b>	Hannah McCord, Cypress Lakes High School
<b>Presenter(s):</b>	James Villanueva, Lubbock Estacado High School

**Description:** Award winning writer and educator, James Villanueva, is the author of, *Remembering Slaton, Texas: Centennial Stories 1911-2011*, published by The History Press and the young adult novel, *Flick*. His writing has been featured in several publications and magazines including Texas Monthly, Latino Lubbock Magazine, and the Atlanta Journal-Constitution. He has presented and been a special guest speaker for several writing workshops and conferences throughout the United States. The teleplay for his novel, *Flick*, was an entry in the Austin Film Festival.

James is currently on the board of the Wild Lark Books Fund. The Wild Lark Books Fund is a registered nonprofit entity with the mission of making publishing accessible by providing funds to historically excluded – and thus under-heard – writers. The Wild Lark Books Fund serves historically excluded communities and minority voices. This includes young writers, members of the LGBTQ+ community, and historically oppressed ethnicities. Generous donations and all proceeds from sales make the vision of The Wild Lark Books Fund possible. James is the director of the Wild Lark Books Young Voices which hosts writing workshops for teens throughout the South Plains and will be used for the creation of the anthology, *The Trailblazer, Young Voices of the Texas Panhandle*, to be published by Wild Lark Books in spring of 2023 and edited by Villanueva. The proceeds will benefit the Wild Lark Books Fund.

The Secret Language of Prairie Dogs is Villanueva's third full length book and will be published in the spring of 2023. The novel has been described by the Writers League of Texas as a gripping novel examining the immigrant experience in west Texas. Villanueva has established the main character, Santos, as an intriguing protagonist and highly compassionate. His work is striking and effectively illustrates the two worlds teens often have to juggle when crossing the border according to the league.

In the 70,000 word Novel, The Secret Language of Prairie Dogs, Seventeen-year-old Santos Ramos is a curandero - Latinx shaman - living in desolate west Texas. When a mute boy crosses the border through a sinister smuggler, Santos finds himself fascinated by the voiceless teen. In this modern reimagining of the traditional witch stories, Santos is questioning everything about who he is as a curandero while craving the freedom of becoming the teen he aches to be. When Dulcero arrives, Santos finds himself like the trailing dying light of a midnight star, falling - falling fast in love with the voiceless visitor who needs his healing hands.

James currently teaches English at Lubbock-Estacado High School where he assists with One Act Play and coaches speech and debate. He lives in Slaton, Texas with his larger than life miniature dachshund, Oliver, and is busy editing his latest book.
